SELF-ADHESIVES

3rd March 2026

REACH – Candidate List of Substances of Very High Concern (SVHC)

Dear Customer,

we hereby inform you that, according to Regulation (EC) No 1907/2006 (REACH), the products manufactured by Fedrigoni Self-Adhesives are defined as "articles"[1], and thus do not fall under the obligation to be registered.

As a producer of articles, according to REACH our Company is identified as "downstream user" of substances, and therefore does not fall under the obligation to register any substance: an obligation to register only exists for downstream users in case of direct import of substances or preparations from outside the European Union: for our Company, this is not the case.

The duties of registration are binding for our suppliers, or for their suppliers: our suppliers assured us that substances contained in the products we use are already registered at the European Chemical Agency (ECHA).

According to Art. 33 of the abovementioned Regulation, suppliers of articles shall provide relevant information to customers when a product contains a Substance of Very High Concern (SVHC), as identified according to Art. 59, in a concentration above 0.1 % (w/w).

Fedrigoni Self-Adhesives confirms that none of these substances is intentionally added in the manufacturing of our products; furthermore, on the basis of the information provided by our suppliers, we are confident that none of our products contains any such substance, as for the **SVHC list updated 4th February 2026,** in a concentration exceeding the 0.1 % w/w.

Exceptions to this statement are represented by the products listed in TABLE 1, which contain a concentration above 0.1 % (w/w) of the following substance, included in the Candidate List of Substances of Very High Concern as of January 17th, 2023:

Candidate substance	CAS-No	EC-No.
4,4'- sulfonyldiphenol (bisphenol S)	80-09-1	201-250-5

(for more information, please see https://echa.europa.eu/candidate-list-table)

FEDRIGONI
SELF-ADHESIVES

We are disclosing this information, to the best of our knowledge, on the basis of data from our manufacturing processes and from our raw material manufacturers.

Please be aware that Fedrigoni Self-Adhesives does not analyse the raw materials used in the manufacturing of our products, nor analyses the finished products for the presence of any SVHC, and thus cannot formally guarantee the absence or level of these substances to a given threshold value.

This statement is valid for the product as such, as supplied and does not cover subsequent transformations (printing, die cutting, further coating or lamination) for which conformity to the abovementioned requirements needs to be reassessed.

Our Company is committed to communicating any changes to the production process involving substances included in the Candidate List, as well as any eventual amendment to this declaration, if necessary, when new substances are added to such list.

We trust that this information will meet your requirements.

[1] Articles are defined by REACH as "an object which production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition" Article 3(3).

REGULATORY AFFAIRS OFFICE

Disclaimer:
This information is for guidance only. It is based on our most up-to-date knowledge and experience, and we cannot assume any liability for damage caused through its use. This statement does not constitute any warranty, express or implied; it is only intended for the recipient and cannot therefore be transferred to any third party. We cannot assume any liability for using our products in conjunction with other materials. All our products are sold subject to Fedrigoni Self-Adhesives general sales conditions; note that you should also ensure that any existing law is observed. This publication replaces all previous versions published; all information is subject to change without notice.
