Due to the variety of OEMs, print engine technologies and printer settings, we strongly recommend that users test product performance on their specific print system prior to purchasing. It is the customer's responsibility to test and approve all product constructions under actual application conditions prior to ordering.

AcuChoice Terms & Conditions:

All material constructions ship from the specified distribution center under the following program ordering requirements:

SS: Item listings represent our SmartSlit® items that are available in pre-slit widths and lengths or a minimum order of master width x 2,500 LF.

NT: Item listings are "No Trim" with a 3" x 5,000' minimum order quantity in the available master widths specified.

MW: Minimum order quantity for products that include this abbreviation are master width x linear length.

EarthFirst®, Kimdura® and Valéron® are trademarks of the respective suppliers. It is the responsibility of the customer to test and approve all product constructions under actual application conditions prior to ordering. Any component and/or roll length deviations from above are subject to custom coating guidelines. Freight costs are set at a flat per msi rate. All orders are subject to Acucote's published Terms & Conditions. Acucote reserves the right to change, modify, or delete any product or program listing without notification.

EXTENSIVE CAPABILITIES AND SERVICES

AQUEOUS ADHESIVE LINE

We offer acrylic and rubber resin formulations - custom coat weights available.

BLOCKOUT AND COLORED ADHESIVES

Our blockout is a visually superior product offering the highest degree of opacity in the industry. Adhesives can also be custom blended to meet your specific color requirements.

CUSTOMIZED INVENTORY PROGRAMS

Master and slit roll inventory programs are available at all of our distribution centers: Graham, NC (headquarters); Montgomeryville, PA; Fairfield, OH; Garland, TX and Cerritos, CA.

CUSTOM-PRINTED LINER

Have your specific image/text printed on the reverse side of a silicone-coated liner. We can also print on the backside of facestocks prior to PS laminating for enhanced security - both overt and covert.

HEAT SEAL

Available for a wide range of food, medical and industrial packaging applications. Activation temperature +200 - +225F. Available for film and paper facestocks.

MULTI-PLY CONSTRUCTIONS

Offering a full line of piggybacks and customer-specific multi-faced constructions developed by our Applications Team. Custom pattern adhesive coating is also available.

PATTERN ADHESIVE COATING

We manufacture custom linear adhesive pattern coating (gummed and ungummed).

PERMANENT LAMINATIONS

We can service all of your solutions that do not require a silicone release liner.

PRODUCT/APPLICATION DEVELOPMENT

Our Applications Team meets daily to develop unique labeling solutions for customer-specific opportunities.

ROLL-TO-SHEET

Our re-moisturization processes and tension control systems on each of our adhesive and silicone coaters ensure layflat for sheeting at your facility.

SECURITY PRODUCTS

Select from white or silver void, TE litho or additional destructible stocks. Other security enhancements include photoluminescent facestocks/adhesives and covert/overt messaging.

SHEETED PRODUCTS

We have the ability to sheet pressure-sensitive/nonpressure-sensitive papers, films, synthetics, boardstocks and customer-supplied stocks. Our sheeting capabilities range from 12" to 42" W and 13" to 48" L and 13" to 60" W and 13" to 100" L.

SILICONE COATING

Available liner bases include paper, polyester, poly-coated kraft and custom options - all with customizable release systems. Custom pattern silicone coating is available.

SUSTAINABLE PRODUCTS

We offer recyclable, compostable and biodegradable facestocks and adhesives, FSC certified facestocks and liners, repulpable adhesives for paper facestocks, water removable adhesives and environmentally benign coatings.

TOLL COATING & SLITTING

We accept customer-supplied materials including adhesives, facestocks, release liners and basestocks. Customers can supply one or all of the components for toll coating. We are also able to slit customer-owned masters of paper and/or film up to 63".

TOPCOATING

Flexo, inkjet (UV, dye, pigment), laser and HP coatings are available for papers, films, vinyls and metallized facestocks.

TRANSFER TAPES

We offer a variety of adhesives and liners for supported/unsupported transfer tapes. Custom pattern adhesive coating is also available.

WINE AND SPIRIT

Offering a vast range of Fedrigoni materials with elegant textures, diverse colors and high quality performances that defy the challenges of wet, cold and humid environments.
